MEDIA GUIDE 2017

The right people
read Glass News:
and that's not
just you!

www.glassnews.co.uk

As the fenestration industry's leading newspaper we don't just aim to give you the latest industry news and product detail, we also want to give you a good read.

Trade journals should appeal to everyone from suppliers to manufacturers to fabricators and installers, and we're just as happy seeing Glass News on a Chief Executive's desk or on the dashboard of an installer's van.

For Glass News it's all about relationships, and our philosophy is 'no hard sell - let's build the relationship'.

We understand that your standards are high. Everyone at Glass News works exceedingly hard to reach the highest standard possible.

With our ever growing readership and circulation, Glass News appeals to all sectors of our industry.

The right people read Glass News, and that's everyone!
