

BOAVISTA

GLASS FITTER

This is an excellent opportunity for someone with ambition to develop a new role and to join in the success of our new business which is distributing the first full range of fibreglass window frames in the UK.

Our head office is in Farnham, Surrey, and projects through our growing dealer network will take you across the south of England. We are responsible, hard-working and honest and we work to a high standard.

If you share these values and have glazing or window fitting experience, a clean, current driving license, CSCS card and are able to lift reasonably heavy glass we would like to hear from you, especially if you are keen to develop into a supervisory or training role. Please apply with your CV or full employment history to:

hello@boavistawindows.co.uk.
